Social Impact - Almetric

Additional research-impact indices, known as alternative metrics, are offering new evaluation alternatives. One of those is a researchers' reputation made via their footprint on the social web. Below are the number of article mentions in the social web in the years 2014-2016. Articles can only be counted if the DOI is included in the article.

Article Processing Charge (APC) for *Maxillofacial Plastic and Reconstructive Surgery*

APC for society members

- ✓ Sponsored by the Society
- ✓ Condition: Articles submitted by society members and accepted by the Editor(s)-in-Chief

A discounted APC for non society members

- ✓ Condition: Articles submitted by non- members of the Society and are based in Korea

Open Access @ *Maxillofacial Plastic and Reconstructive Surgery*:

- ✓ article freely available online
- ✓ copyright remains with the authors
- ✓ article can be reused in part or in full by anyone for any purpose without restriction
- ✓ allows full compliance with open access mandates of funding agencies

Dedicated email campaigns promoting *Maxillofacial Plastic and Reconstructive Surgery*

- three dedicated email campaigns were sent to scientists interested in the journal's field. In total, the campaigns were sent to over 13,000 researchers (open rate of 30.14%)
- MPRS was included in two cluster campaigns that promoted SpringerOpen clinical journals to over 85,000 researchers worldwide (open rate of 17.68%)

#salutation_en_formality#

2015 was a good year for *Maxillofacial Plastic and Reconstructive Surgery* (Maxillofac Plast Reconstr Surg) with the trust and involvement of the [Editorial Board](#) and authors who submitted their articles, we have seen this fully open access journal grow from strength to strength.

We invite you to get involved by submitting your next manuscript to our journal, or if you have already submitted with us, keep up the good work this year!

Read some of our recently published articles

- [Histologic study of bone-forming capability on polydeoxyribonucleotide combined with demineralized dentin matrix](#)
Seok-Kon Kim, Chang-Kyu Huh, Jee-Hoon Lee, Kyung-Wook Kim and Moon-Young Kim
- [Bisphosphonate-related osteonecrosis of the jaw in metastatic breast cancer patients: a review of 26 cases](#)
Hong-Joon Kim, Tae-Jun Park and Kang-Min Ahn

Journal scope

The journal publishes special articles on clinical and basic researches concerning to epidemiology, etiology, treatment, or prevention of the congenital and acquired anomalies/defects which involve the oral and maxillofacial region.

Society affiliation

 **KAMPRS** Maxillofac Plast Reconstr Surg is affiliated with the [Korean Association of Maxillofacial Plastic and Reconstructive Surgeons \(KAMPRS\)](#) and is the official journal of the society.

This journal is also supported by the [Korean Federation of Science and Technology Societies \(KOFST\)](#) grant, funded by the Korean Government.

Reasons to publish with us

- Global visibility for your research
- Expert International Editorial Board
- High quality peer-review service
